

Why is tiny Estonia  
a titan when it  
comes to cyber  
defence?

research  
estonia

Being the most wired country in Europe, Estonia has the methods, technologies and smart people to make digital systems secure.

Estonian researchers are the very best at cybersecurity, a cyber crisis management and quantum cryptography.

Estonia hosts the largest and most advanced cyber defence exercise in the world - Locked Shields.

The NATO Cooperative Cyber Defence Centre of Excellence is located in Estonia, highlighting its importance when it comes to improving cyber defence interoperability within NATO.
